

Boyd's Rules

A SPOTLIGHT ON SERIOUS PRODUCTS SUMMER 2007

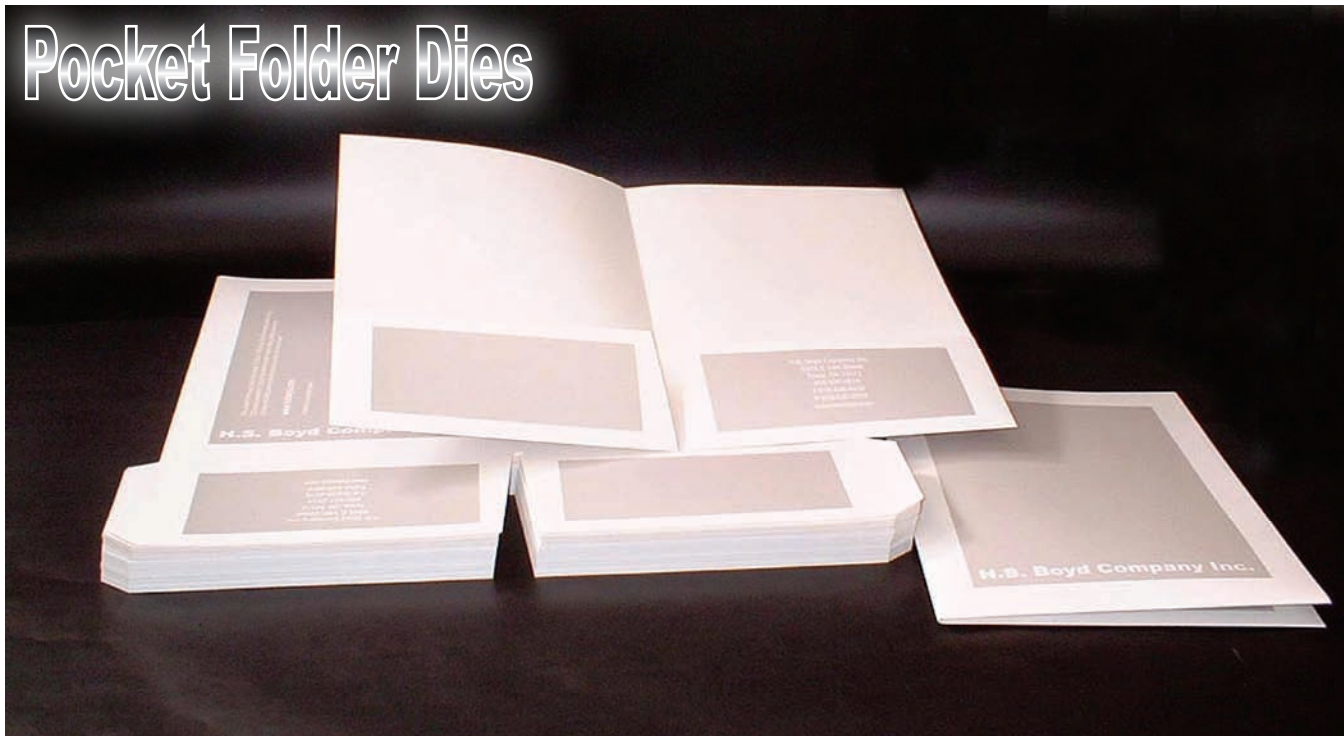

Perforation • Cutting • Scoring • Dies • Optics • QC Instruments

H. S. Boyd is now offering fully customized POCKET FOLDER DIES to increase pressroom efficiency. Available in either IOC or PPP format POCKET FOLDER DIES can be mounted on most popular offset, sheet-fed presses allowing finishing in-house and on time. Using proprietary technology score lines are crisp with minimal cracking on full printed stock. Another die-cutting innovation from H. S. Boyd Company.

Pocket Folder Dies

H.S. Boyd introduces its "Newsletter Bonus" offering discounts in our quarterly newsletters.

Log on to www.hsboyd.com to retrieve the codeword from the homepage.

Receive 10% off any purchase of Boyd's Optics when you enter the code at the end of your order. This discount is good for both online and phone orders. Offer expires 7/31/07.

Look for future bonus offers to save you more time and money!

Now, you can watch actual installation video of the new IOC system. IOC is a press specific die-cutting solution for most offset printing presses. IOC allows complete control of die-cutting demands while maximizing pressroom efficiency. Another innovation for the pressroom from the people who invented inline offset finishing. To watch the video, go to www.hsboyd.com and click on the IOC tab.
